

Under the umbrella of FoodAG  
**TDAP PRESENTS FOODAG MANUFACTURING**  
Innovating Future

# PAKISTAN'S LARGEST AGRO-FOOD MANUFACTURING EVENT

**26<sup>TH</sup> - 28<sup>TH</sup> FEBRUARY, 2025**  
**EXPO CENTRE LAHORE**

## ABOUT FOODAG MANUFACTURING 2025

FoodAg Manufacturing is set to become the premier platform for the F&B industry, driving the adoption of advanced agricultural technologies. The event is set to enhance efficiency and productivity, helping industry professionals meet evolving challenges head-on. This dynamic three-day exhibition will showcase cutting-edge solutions, boost efficiency, and foster global partnerships. Join us in Lahore to connect, innovate, and shape the future of food manufacturing!

## WHAT PAKISTAN'S AGRICULTURE LANDSCAPE HAS TO OFFER

Pakistan is a land of incredible ecological diversity, with varying topography, altitudes, climates, and seasons that create the perfect conditions for a wide range of crops and a flourishing livestock industry. As the 10th largest agricultural producer in the world, Pakistan delivers an impressive array of cereals, meat, milk, fruits, and vegetables. With an output exceeding \$50 billion, Pakistan plays a crucial role in the global food supply chain.

## AREAS OF FOCUS

### INGREDIENTS

Discover the latest trends in ingredients—from color enzymes and emulsifiers to fermentation cultures, plant extracts, and stabilizers—shaping the future of F&B.

### PACKAGING

Explore packaging solutions for every scale with machinery for printing, labeling, weighing, sorting, and decorating, tailored for small to large operations.

### PROCESSING

Uncover advanced F&B processing technologies, including innovations in meat, baking, beverages, refrigeration, food safety, and quality assurance.

### SUPPLY CHAIN SOLUTIONS

Find cutting-edge solutions in materials handling, transportation, warehousing, and commercial vehicles, designed to optimize the F&B supply chain.

# WHAT TO EXPECT AT THE INAUGURAL FOOD&G MANUFACTURING 2025?

Industry-leading innovations, solutions, and technologies are set to transform the future of food and beverage manufacturing.

## FOODAG SUMMIT

With over 50 industry leaders, the FoodAg Summit offers an exciting agenda featuring food engineering breakthroughs, metaverse factories, advanced food safety, circular ecosystems, and sustainability-linked finance. It's the ultimate platform to shape the future of food and agriculture!

## HALL OF FAME

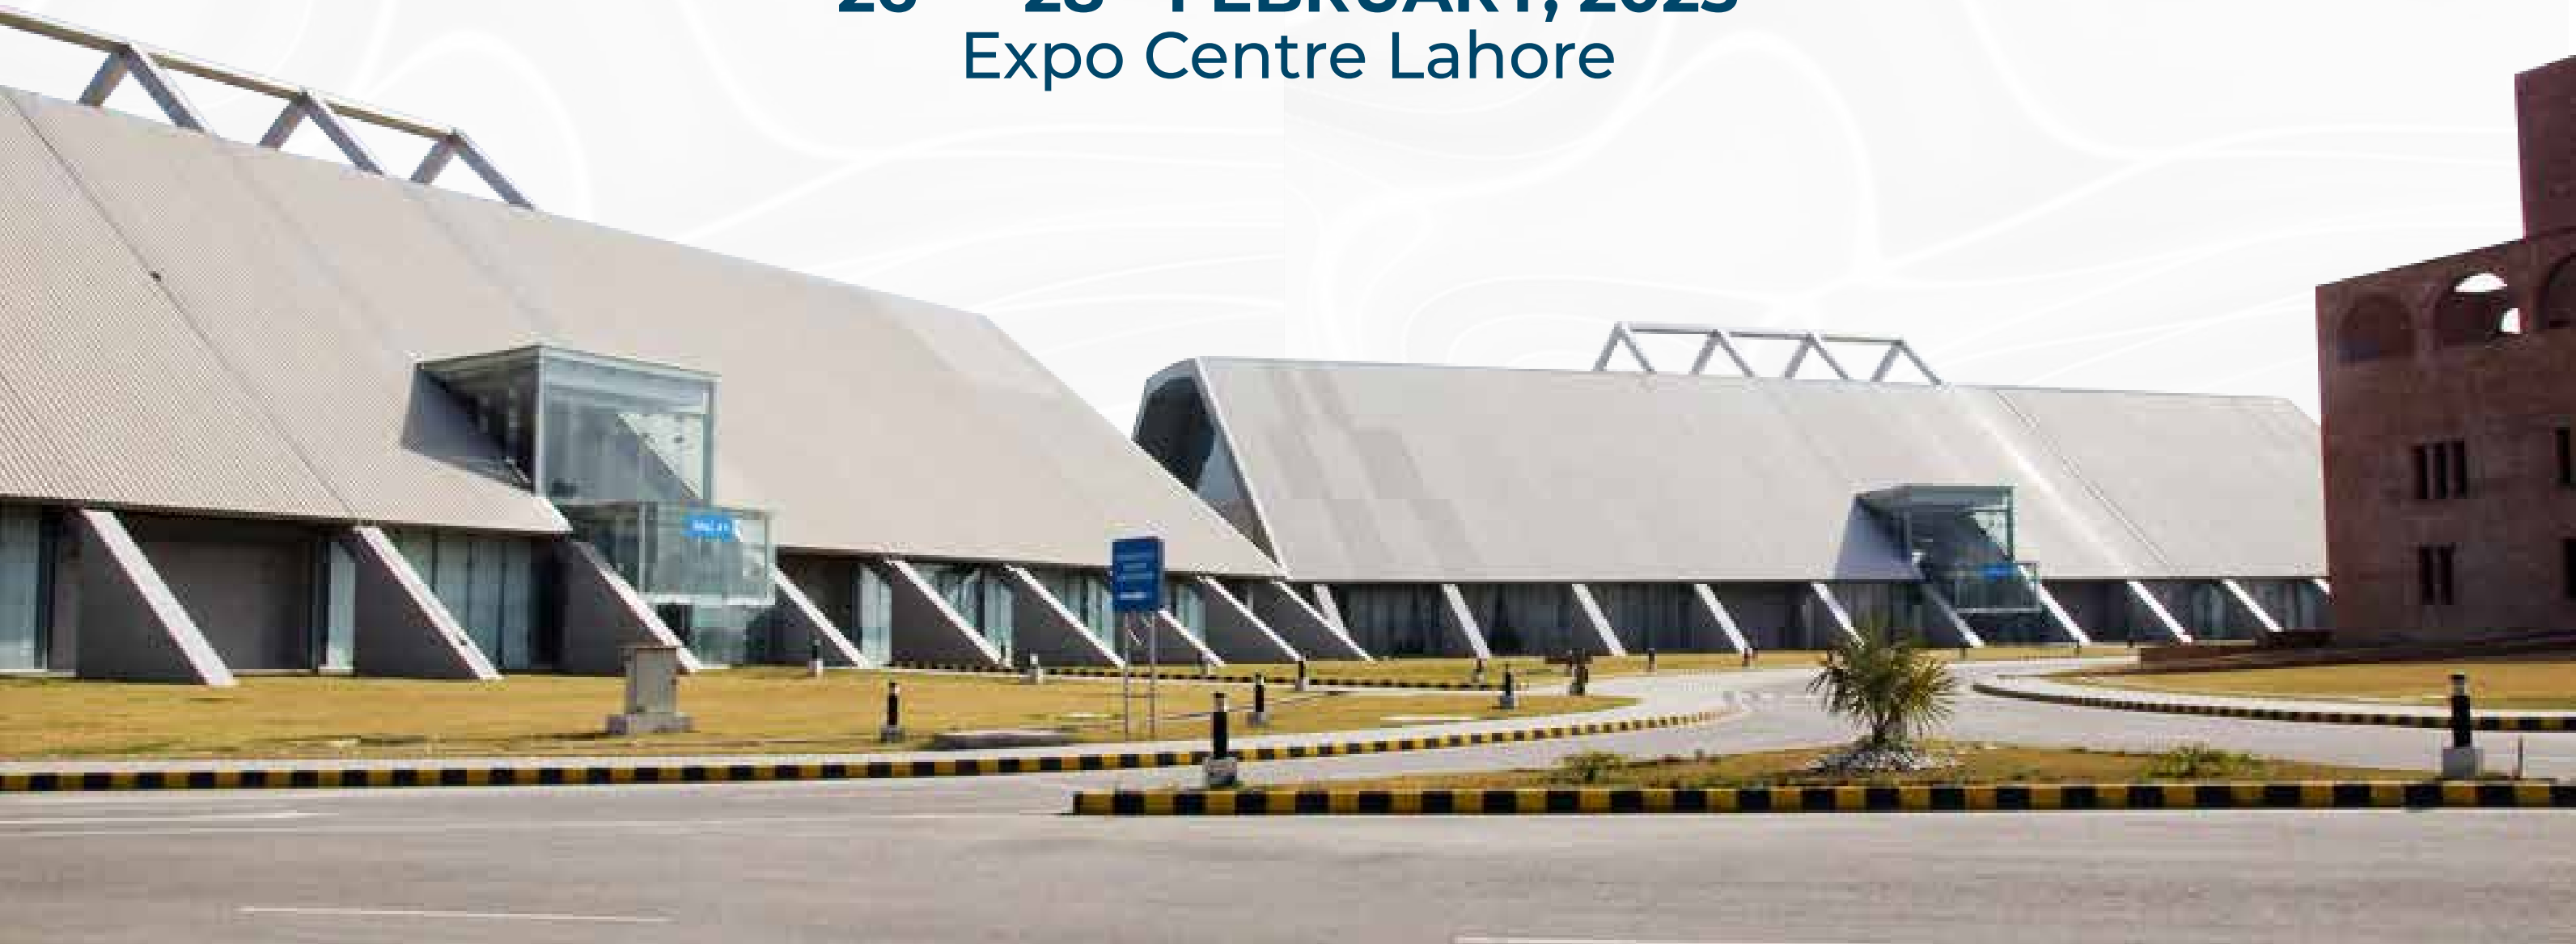

Step into the Hall of Fame at FoodAg Manufacturing—a premier showcase of innovation in ingredients, processing, and packaging. Display your groundbreaking technologies on dynamic screens, capturing the attention of industry leaders and potential partners.

\*Screen space is limited—secure your spot now to elevate your brand and lead the future of F&B manufacturing!
